

Software Requirements Specification

Untitled App

Project ID: SRS-UNTITLED-APP | Status: approved | Generated: 2026-04-24

1. Introduction

This document specifies the functional and non-functional requirements for a project management application that enables small teams to collaborate effectively through task management, automated reminders, role-based access control, and document export capabilities.

A web-based project management application supporting task creation and tracking, team collaboration with role-based permissions, automated reminder system, and PDF export functionality for project documentation.

2. Core Features

FEAT-001 - User Authentication and Management

Secure user registration, login, and account management with email and password authentication.

REQ-011: The system shall allow new users to create accounts using email and password credentials.

REQ-012: The system shall authenticate registered users using email and password credentials.

FEAT-002 - Project and Task Management

Comprehensive project creation, task assignment, and progress tracking capabilities.

REQ-021: The system shall allow administrators to create new projects with basic information and settings.

REQ-022: The system shall support creating, assigning, and tracking tasks within projects.

FEAT-003 - Role-Based Access Control

Management of user permissions and access levels based on assigned roles within projects.

REQ-031: The system shall allow administrators to assign roles and permissions to team members.

REQ-032: The system shall enforce access restrictions based on user roles and permissions.

FEAT-004 - Reminder System

Automated notifications for deadlines, task assignments, and project milestones.

REQ-041: The system shall send automated reminders for upcoming project and task deadlines.

REQ-042: The system shall notify users when they are assigned new tasks or responsibilities.

FEAT-005 - PDF Export Functionality

Generation and download of project reports and documentation in PDF format.

REQ-051: The system shall generate PDF reports containing project details, tasks, and progress information.

REQ-052: The system shall export task lists and assignments in PDF format for individual projects.

3. Validation Summary

Status: ready | Completeness: 100
